Capability & Certifications.

Engaging braggs on your signage project or as your preferred supplier means you place a lot of responsibility and trust in us to deliver the outcome effectively, safely and to a level of statutory compliance.

We are QBCC Licensed and have completed 3rd Party Risk Assessment certifications, ensuring we manage safety and mitigate risk and liability.

We also actively engage in a range of associations to ensure we are ahead of the curve with industry trends.

QBCC Lic # 15339943

It's the law! Signage companies are required to hold a relevant Queensland Building and Construction Commission (qbcc) licence.

WHS Certification

We undertake an annual audit by 3rd party Risk Assessors to certify our workplace system & processes meet rigorous standards & legal compliance.

Australian Sign & Graphics Association

We are recognised as a proud member of this industry association.

Interior Fitout Association

Members of this leading industry association for interior fitout work.

What we do.

We are a full-service professional signage provider who can work with you through the entire process from initial scope and concept to final install.

Consult

Our experienced client & project managers can assist in providing essential advice and guidance for your overall signage marketing objectives. From the initial stage of communication strategy, best value design specification all the way through to bringing your brand to life within a physical environment.

Manage

The key to a successful signage project is in the preparation and management of the project from start to finish. At Braggs your dedicated manager will work with you as your single point of contact through all phases of your signage projects.

Design

At Braggs, our team have significant experience across multiple areas of design including creative design, structural and engineering design specifications and detail. Importantly we know how to execute and apply your brand in the signage application.

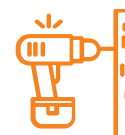

Print

Here at Braggs, we have a dedicated print production team with eco based HP Latex machines to print your signage at the highest quality. We can ensure quality control and colour matching to brand specification and guidelines printed for the right application.

Create

With our fully-equipped manufacturing and workshop facility and highly skilled in-house team, Braggs can manufacture customised signage to your specific design requirements.

Install

We don't use sub-contractors for installation but rather own and manage this process with Braggs staff to ensure quality, safety and flexibility in delivering your project on time. Our people are trained, accredited and certified to ensure your work is completed to WHS requirements

Solutions.
